One of the rides will take us to Apache Maid Cabin. This rustic forest cabin is located at the eastern base of Apache Maid Mountain, just two hours north of Phoenix and near the popular red rock canyons. We will also stop and see the Apache Maid lookout tower. This tower is located on the Apache Maid mountain where the elevation is 7,300 feet.

The second ride will take you to Long Lake. The lake is in an area of open grasslands dotted with pinyon and juniper trees. It is named after a legend of a long serpent type creature that was reportedly seen by ranchers as they herd cattle near the lake.

Camping - Night Ride - Raffles - Day Rides - Meals - Cornhole
